

Motorola V3i

DISASSEMBLY GUIDE

By Pioneer
MotoX.info

**I Will Not Be Responsible
For Any Damaged Caused To Your Phone
By Following My Guide Nor Will MotoX.Info!!!**

YOU WILL NEED:

1. Old Simcard (*Or A Hard Plastic Piece*)
2. Knife (*Or Something With Pointy End*)
3. T6 ScrewDriver

TO START DISASSEMBLY:

1. Have A V3i iTunes Or Non iTunes, Turn It Off.

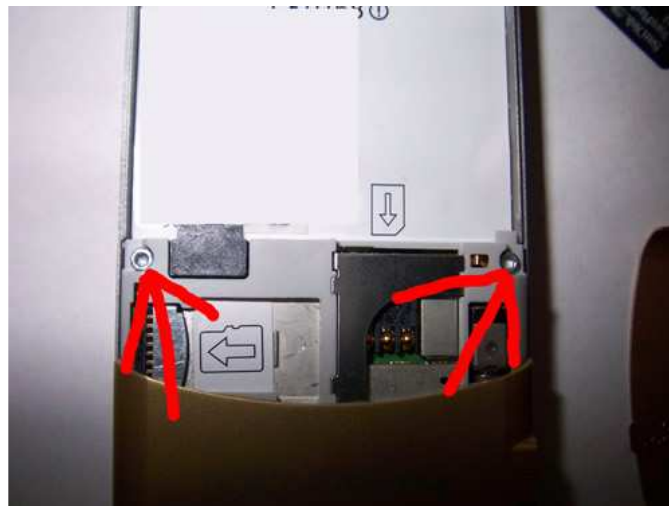

2. Take Off Back Cover Plate.

3. Remove Battery, Simcard And T-Flash Card.

4. Use T6 Screwdriver To Unscrew The Two Screws Indicated.

5. Use Simcard (Or Similar) To Remove The Back Panel, Start From The Side With The Rubber Hole Cover Thing (See Pic)

6. With One Side Off Go to The Other Side Doing The Same.

7. Lift Off The Board - **BE VERY GENTLE! SO YOU DONT RIP THE FLEX CABLE!!!**

8. Remove The Flex Connector With Your Fingernail, Or The Blunt Side Of Knife, and Separate The The Phone From The Main Board.

9. Move The Housing To One Side, We Will Work On The Main Board.

10. Remove the Two Black Rubber Holders, With The Point Of Knife, "Flick" Them Off.

11. Put Your Knife Under The White Rubber Looking Ring That Goes All Around The Antenna Plastic And Lift, Gently. (See Pic Where To Put Knife)

12. Seperate The 3 Parts, Black Rubbers, Antenna Plastic And The Main Board.

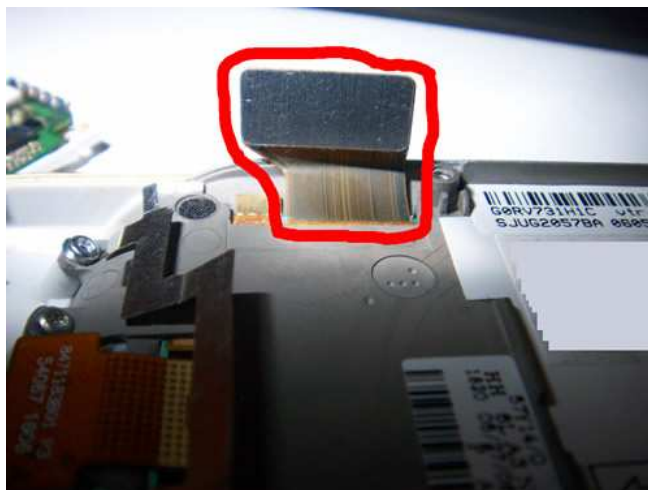

ASSEMBLING THE PHONE AGAIN

1. Put The Mainboard Back In Place, Put The Antena Plastic Back On and Place The Rubbers Back In Place.

2. Check That The Flex Cable Has No Damage, If IT Does Buy A New One (Cnn.cn, eBay.com, GSm4World.us)

3. Connect Flex Cable Back To Main Board Using Finger, And Check For Damage Again.

4. Put Phone Together, So Place The Main Board On Top Of The Housing and Press Do Until You Hear Or Feel It "Click Into Place"

5. Screw Up The Two Screws, And Place Battery Simcard And T-Flash Card Back In.

6. Power Up Phone, And Make Sure Everything Is Working.
